- Develops treatment plans by determining nature and extent of cognitive, emotional, developmental, social, and behavioral disorders; establishing treatment goals and methodologies.
- Maintains interdisciplinary treatment by reviewing treatment plans and progress; consulting and collaborating with primary care physicians, mental health therapists, nurses, and other healthcare providers.
- Assures quality and safe service for patients and staff by enforcing policies, procedures, standards, rules, and legal regulations; participates in utilization reviews; remaining available for emergency consultations.
- Maintains historical records by documenting symptoms, medications, and treatment events; writing summaries.
- Updates job knowledge by participating in continuing medical educational opportunities; reading professional publications; maintaining personal networks; participating in professional organizations.
- Performs all other responsibilities and projects as they are assigned.

KNOWLEDGE, SKILLS, AND ABILITIES

- Excellent communication skills (listening, verbal and written).
- Excellent critical thinking skills.

- Ability to identify appropriate treatment plans, and to interpret the treatment plans to patients, relatives, staff, and other medical professionals.
- Knowledge of medications and their effects on physical and psychological disorders.
- Knowledge of research methods and techniques.
- Knowledge of current theories and practices in the field of mental health.
- Knowledge and experience with treating and prescribing medications (i.e. Vivitrol) appropriate for addiction and dependency.
- Knowledge of laws related to HIPAA, patient and employer confidentiality.
- Excellent computer skills; detail oriented with excellent organizational skills.

MINIMUM QUALIFICATIONS

- Requires a M.D. or D.O. with certification in Psychiatry.
- Must have and maintain a current Controlled Substances Registration Certificate from the U.S. Drug Enforcement Administration.
- Must have and maintain a current Physician License and Controlled Substance License from the State of Michigan.
- Current Data 2000 waiver

PHYSICAL REQUIREMENTS (in accordance with ADA)

- Must be able to hear and speak clearly in order to communicate information to patients and staff.
- Must be able to have vision adequate to read documents, a computer screen, and other clinic documents.
- This position is occasionally active and requires standing and walking for the duration of the workday.

OTHER REQUIREMENTS

- A wide degree of creativity and flexibility is needed.
